Seqrite
Digital Risk Protection Services (DRPS)

Safeguard your brand, data, and reputation from digital threats beyond the perimeter

Is your business currently facing these challenges?

External Threats Beyond Perimeter: Fake domains, impersonation sites, and dark web leaks continually put your brand and customers at risk.

Limited Visibility of Traditional Security: Firewalls and internal tools miss threats that originate outside your IT environment.

Brand Impersonation & Data Leaks: Attackers use social platforms and forums to mimic brands, leak data, or sell stolen assets.

Compliance & Reputation Risks: Privacy violations, such as data protection breaches, can result in significant fines and lasting reputational damage.

Supply Chain Vulnerabilities: Third-party platforms are increasingly serving as entry points for attacks.

Intellectual Property Theft: Proprietary designs, algorithms, and pricing details are at risk of unauthorized exposure.

Threats to IT Infrastructure: DDoS, ransomware, and API attacks can disrupt operations.

Online Counterfeit Products: Fake listings and counterfeit products mislead customers and dilute brand trust.

Ensure Proactive Protection Against External Threats with Seqrite DRPS

Seqrite Digital Risk Protection Services (DRPS) empowers enterprises to detect and monitor online threats before they cause damage.

Seqrite DRPS, a SaaS platform, continuously scans the surface, deep, and dark web to uncover impersonation attempts, leaked credentials, and fraudulent activity, helping you protect your brand, data, and digital presence from every dimension.

Business Benefits of Seqrite DRPS for Modern Enterprises

- **360° Digital Visibility:** Get continuous monitoring across websites, marketplaces, and social platforms with early detection of fake domains, impersonations, and data leaks — all prioritized by severity.

- **Stronger Cyber Resilience:** ML-driven threat detection and predictive monitoring help identify emerging attack vectors and stop breaches before they occur.

- **End-to-End Brand Protection:** Track fake accounts, counterfeit listings, domain spoofing, and IP misuse to safeguard customer trust and brand reputation.

- **Simplified Compliance and Risk Management:** Stay audit-ready with automated reports, regional data regulation adherence, and detailed digital evidence for investigations.

- **Rapid Response and Expert Support:** A dedicated DRPS war room ensures swift takedowns, legal escalations, and crisis management to contain incidents fast.

Key Features of Seqrite DRPS
