

Seqrite Data Privacy

Build Customer Trust and
Achieve Compliance with Ease

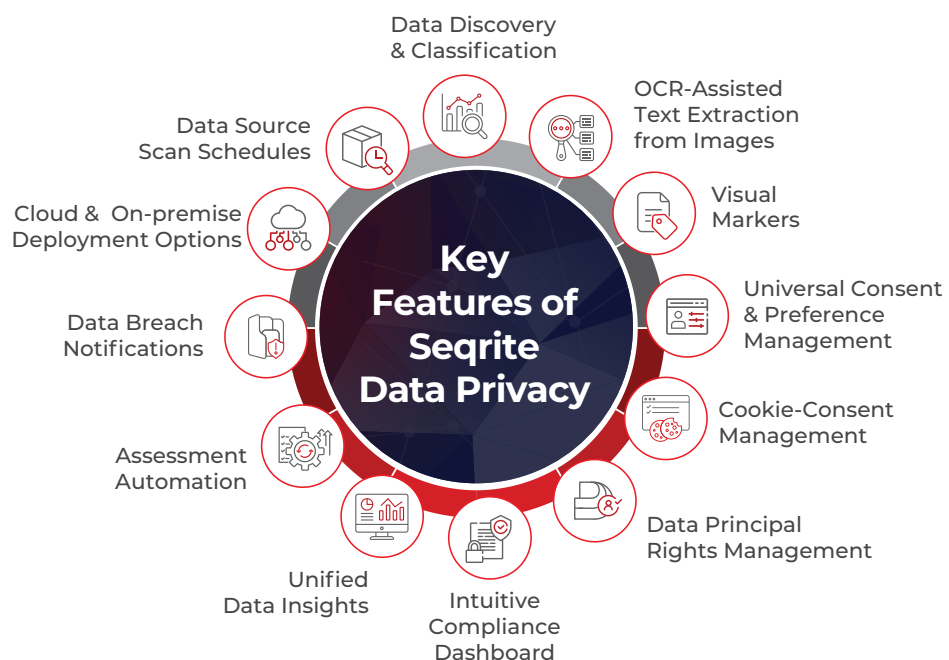

Is Your Business Facing These Challenges While Handling Customer Data?

- **Scattered and unaccounted data across systems** making it difficult to identify sensitive information and prioritize risks.
- **Inability to demonstrate compliance confidently**, especially during audits, breach events, or regulatory reviews.
- **Complex and time-consuming processes** to manage customer requests, consents, and data handling obligations.
- **Inconsistent privacy practices across digital channels**, leading to gaps in cookie banners, preferences, and user trust.
- **Lack of organization-wide privacy awareness**, increasing the chances of accidental disclosures and non-compliant data handling.

Seqrite Data Privacy – A Comprehensive Solution for Effective Privacy Management

Seqrite Data Privacy is a comprehensive privacy management solution that helps organizations discover, classify, and protect sensitive data across their digital landscape. It streamlines consent and rights management, supports breach readiness, and simplifies compliance with evolving data privacy regulations while ensuring secure and responsible data practices.

Business Benefits of Seqrite Data Privacy

- ✓ **Gain complete visibility of sensitive data** across endpoints, cloud apps, databases, and file servers—reducing blind spots and strengthening governance.
- ✓ **Lower compliance and financial risk** through automated discovery and classification that prevent accidental exposure.
- ✓ **Meet breach reporting obligations on time**, safeguarding brand reputation and reducing regulatory penalties.
- ✓ **Streamline rights management** with faster, accurate fulfilment of access, correction, deletion, and portability requests.
- ✓ **Improve consent governance** by centrally capturing, tracking, and honoring user consent across digital touchpoints.
- ✓ **Enhance website and application compliance** with adaptive cookie consent and preference management.
- ✓ **Accelerate audit readiness** through automated DPIA, PIA, TIA, and vendor-risk assessments.
- ✓ **Reduce operational overhead** with a unified platform for discovery, governance, consent, rights, and assessments.
- ✓ **Strengthen organizational privacy culture** through gamified learning, e-learning modules, instructor-led trainings, and engaging awareness content.
- ✓ **Build customer trust and confidence** by demonstrating responsible data handling and transparent privacy practices.
